

GIS DATA VIEWER UPGRADE

Preliminary details regarding the implementation of a new
general purpose data viewer for Guilford County.

- The Information Services Department has recently begun working to implement the first major upgrade of our GIS Data Viewer in a decade.
- Our current site will remain running for a period of time after the new site is released late summer, 2020.
- As part of the development process, we are actively soliciting end-user comments on what features they may want to see incorporated into the new viewer. If you would like to contribute, please contact us at (336) 641-2549 or by email using gis@guilfordcountync.gov.
